Friday 24th April

Summer School Uniform

We have been very lucky with the warm weather this week! It is still very important that the children look smart in their uniform but also keep cool. Summer uniform for girls can be a blue checked blouse and skirt or summer dress and for boys, grey or black school shorts (not sports shorts.) Children may bring a cap to wear in the yard at playtime and when it gets really hot please make sure your child has applied a sun cream, of a high sun factor, at the beginning of the day. Parents, please be reminded that leggings and sandals without socks are not part of school uniform.

Reception

We love our new outdoor area and the improvements that have been made. We are organising all of our resources and over the next few weeks you will see our area develop even more! Please remember to bring sun hats to school when the weather is so lovely.

Year 1

This week in numeracy we have been using number lines to add big numbers! We will continue to use number lines next week when we look at subtraction.

We have also started a new topic in P.E this week too. We are learning all about games.

Year 2

All parents are invited into school next Wednesday, 29th April at 2:15pm to see how we use number lines in Year Two. This is a great opportunity to find out how you can help your child in maths. We look forward to seeing all of you.

Year 3

This week we have been learning about the different sections of a mountain. We used the computers to draw and label the parts.

We also watched someone climb Ben Nevis—the highest mountain in the U.K.

Year 4

This week we have learnt about pyramids. We have built our own Great pyramid and also a step pyramid. We have also located the Nile on a map and created maps of Ancient Egypt.

Year 5

This term, Year 5 will be doing athletics **and** swimming on a Wednesday. Please can you ensure your child has a swimming kit and a P.E. kit including suitable shoes.

Year 6

Thank you for the great response to homework this week. The children seemed to enjoy using the CGP books. Next week we will be using an interactive app called Kakooma. Please download it and try it out at home.
