Thursday 21st May Careers Week Special

Ethan would like to be a chef when he grows up!

Alice Knight visited Year 5 & Year 6, telling them all about life as a University student and what it's like to study Art.

James, who was in the RAF for many years, explained to the children what his job involved and why he had enjoyed it so much.

Reception children enjoyed their trip to the Town Hall and the Library. We scanned and stamped some books like a real Librarian. Kasjia thinks she might like to be a Librarian when she grows up!

Key Stage 2 children met a Geologist who showed them a range of rocks, photographs and equipment. Ellie from Class 5 thought, "it sounds like a really exciting job because fossils that are 100 million years old are really interesting!"

Year 5 visited the EBAC factory and were particularly impressed by their "transformer": a giant washing machine producing robot! Then, the staff ran a competition where the class identified a range of mechanical components and were awarded prizes.

Class 1 and 2 visited Tesco to find out where the fruit and vegetables come from, what the fridges and freezers were like and about all the different jobs they have in one shop.

We have had visits from the local police who showed us their uniforms and police vans. He talked about what it was like to be a police officer.

Year 3 and 4 have visited Locomotion. We learned about the wide variety of jobs we could do there, such as working on an online shop, greeting visitors and organising events.

Alison from Dogs Trust came to talk about the different jobs involved in working for the charity like Canine Carers, Education Officers and receptionists. We met Mollie the dog too!

Thank you to all of our visitors who helped make our Career Week a success!

Year 6 have been entrepreneurs this week and have made and sold bear biscuits and cakes to raise money to adopt a Moon Bear.

Year 6 have had a variety of visitors this week, from prison officers to surgeons and dentists to Dogs Trust employees. The children have thought carefully about what they want to be when they leave school. We hope they follow their dreams when they leave us in July.
