Friday 13th March

Cake Sale

Thank you very much for all the donations for the cake sale. It's really important that the children take part in these events and raise money for others. We will let you know the grand total raised, next week.

Reception

We all really enjoyed our trip out to Hall Hill Farm on Monday. Everyone was so well behaved! We saw lots of animals and their babies around the farm and even got to feed some!

Year 3

This week we have been learning more about telling the time. We have been concentrating on reading times on digital and analogue clocks. We're doing really well. You could help even more by talking about the digital times on your mobile phones and other clocks.

Year 1

Just a reminder that our class assembly with Reception has been moved to 9.00am, Tuesday 17th March. All parents and carers are welcome.

Year 5

We had a fantastic "three trips in one day" at York: enjoying the smells of Jorvik, finding buried artefacts at DIG and getting on-board some special trains at the National Railway Museum. Thank you everyone for getting to school early!

Year 2

This week we have enjoyed measuring capacity of various containers. Your challenge is to discover the capacity of everyday items at home.

Year 6

"Mint," "Awesome," "The best trip ever," are just some of the comments the children made about our trip to The York Dungeons.

Passers by commented on how impressed they were about the children's behaviour!

Staff were really proud of the children's conduct in an unfamiliar city.

Well done to all of those who were involved!

Year 4

In maths this week we have used our measuring skills to find out the perimeter of objects in the playground.
