Friday 15th April

Safety First

Many members of staff have noticed how many children are coming to school on their bikes WITHOUT wearing a helmet. It is great to see so many children using their bikes to travel to school however, we must insist that they wear a cycle helmet. Statistics show that wearing a helmet can reduce brain injury by 85%. We hope to see more children being safe on the way to school.

Reception

We welcome Miss. Cordingly, a university teaching student, to our Reception class. She has met the children this week and will begin to teach small groups next week. Please say hello and let her know who you are at home times.

Class 2

This week in numeracy we have been learning all about quarter, half and whole turns along with clockwise and anti-clockwise direction. Class 2 also welcome Mr Maskell who will be starting in school next week. He is a student teacher and will be sharing teaching responsibilities with Mr Soppitt over the next 8 weeks.

Class 3

Everyone in Class Three has made a very pleasing start to the Summer term. This week we have looked at subordinated clauses and have begun to use fronted adverbials in our writing.

Class 4

On Tuesday we visited the Captain Cook Museum in Middlesbrough. We learnt a lot of interesting facts about James Cook and the countries he visited.

Class 5

Before the Easter break we achieved our target of 42 green days. As a treat we chose to visit ROF 59 at Aycliffe. We all had a brilliant time on the trampolines and rock climbing!

Class 6

Class 6 have worked extremely hard this week and it was brilliant to see that everyone returned their homework from the Easter Holidays. The class have a positive attitude and we're certain they will keep it up all the way to SATs week (Monday 9th May — Thursday 12th May).
