Friday 29th April

Careers Week

Monday 23rd May - Friday 27th May

Last year, our first **Careers Week** was a huge success. This year we will try to show the children as many different jobs as possible. If you can come to school and tell the children about your job or know someone with a particularly interesting job then please contact either **Mr. Paterson** or **Mrs. Foggin**.

Our Nest Cam shows that our Blue Tits have been busy this spring. At least 8 eggs can be seen which are due to hatch within a fortnight. Please follow their progress by following the link on the school website. Can you think of a great name for the first chick that hatches? You could win a cuddly soft toy! Hand your suggestion to **Mr. Burnett** before May 13th.

Reception Class

We had a great time learning how to build with real bricks at Bracks Farm, Keepmoat building site.

Class 2

Class 2 had a fantastic time at Bishop Barrington at the multi skills festival. We had the chance to play lots of different games and practice new skills. We really liked playing kick rounder's!

Class 3

This week, we have been working very hard in maths, calculating long divisions. We've also looked at fractions, which we really enjoy. Ask your child to explain how to calculate division problems.

Class 4

This week in maths, we have measured and calculated the perimeter and area of shapes. In science, we had fun finding out about friction using toy cars and ramps. In English, we have prepared a newspaper report about the Roman Invasion of Britain .

Class 5

We have been proof reading texts for spelling and grammatical errors this week. We have also converting and solving problems with analogue and digital clocks using the 24-hour format.

Class 6

Please encourage your child to be using either BBC Bitesize or Discovery Education's Espresso KS2 at home as revision for SATs.
