

Childhood Pledge

Name:

Childhood Pledge

We believe that childhood is special and should be celebrated. We are passionate about ensuring that our pupils encounter wonderful experiences that help to broaden their horizons and develop their character.

Throughout their school journey children will take part in challenges and activities linked to the following areas:

- Culture and Diversity
- Skills
- Leadership
- Citizenship
- Character

These areas support our drive for our children to have the cultural capital needed to succeed in life.

Each time a child takes part in one of the activities on the pledge they are awarded a stamp to add to their Passport. At the end of their time in school each child will receive a special badge that will forever link them to the school family and they will leave with a wonderful collection of memories and experiences.

Culture and Diversity

We will support our children to have an understanding and appreciation of where they belong in their own community. We will teach them about their history and the history of others. They will have the opportunity to consider their own beliefs and those of others locally, nationally and globally.

Visit a museum

.....

Visit the seaside

.....

Visit a castle

.....

Visit a farm

.....

Visit a place of worship

.....

Visit an art gallery

.....

Learn a song/dance in
a different language
